

## TECH FIELD

# Prathana Maharjan

I am a Motivated and detail-oriented BCA student at Tribhuvan University with a strong foundation in computer science and hands-on experience in frontend web development. Proficient in HTML, CSS, JavaScript, and Python, with a growing interest in data structures and algorithms along with SEO. Demonstrated ability to build responsive websites, create data-driven projects. Eager to contribute to real-world software development projects and continuously enhance technical skills.

## TRAINING/CERTIFICATIONS

### Frontend Development

IT training Nepal / 2024

- Finished an in-depth training in frontend technologies including HTML, CSS, and JavaScript, with a focus on responsive web design and user experience.
- Built interactive and visually appealing web interfaces by implementing modern layout techniques such as Flexbox and Grid.
- Practiced creating fully functional web pages and components, emphasizing cross-browser compatibility and performance optimization.

### Django Training

IT training Nepal / 2024

- Completed a project-based Django training that emphasized backend development using the Django web framework.
- Learned how to create dynamic web applications by working with Django's models, views, templates, and built-in admin interface.
- Built a CRUD-based web app, handled URL routing, integrated templates, and connected the application with a database using Django ORM.

### Electronic Arts Product Management Job Simulation on Forage - May 2025

Forage / 2025

- Completed a job simulation where I developed a solid understanding of different KPIs, and selected the most appropriate KPIs for measuring and assessing specific business problems related to a strategy RPG mobile game.
- Demonstrated my knowledge of key performance indicators within the video game industry.
